

For Immediate Release

Rocket Division Software [info@rocketdivision.com]

STARBURN SDK VERSION 4.7.3 WITH COMPLETE MULTISESSION DVD SUPPORT
RELEASED.

Rocket Division Software had announced immediate availability of the version 4.7.3 of its StarBurn burning SDK. The new version introduces complete DVD multi-session (multi-border) support. Now DVD-R(W), DVD+R(W) and DVD-RAM media can be appended with a new content making DVD a perfect choice for incremental backups and temporary data storage. More information is available at http://www.rocketdivision.com/burn_sdk.html

About StarBurn SDK. This software development kit allows you to add optical media recording and mastering capabilities to your application in minutes. When purchased, SDK comes as a static or dynamic library, set of headers, documentation and samples. The detailed information about the product and its features can be checked out at the http://www.rocketdivision.com/burn_sdk.html

About Rocket Division Software: Rocket Division Software is rapidly growing company providing cutting-edge system-software solutions for Windows NT/2000/XP/2003 and various UNIXes.
